

CASUALTY CARE

Oxygen and site emergency equipment

DURATION	GROUP SIZE	VENUE	VALIDATION
1 day	4 to 10 people	At your site	KABUTO certificate

Who it is for

Site nurses, emergency response team members, HSE staff

Prerequisites

Nursing staff or appointed emergency response team member

Learning objectives

By the end of the course, the trainee is able to:

- Check an oxygen cylinder and its regulator before use
- Give oxygen by mask and ventilate with a bag valve mask
- Suction airway secretions and, for healthcare staff, insert an oropharyngeal airway
- Keep the inventory and the expiry dates of the clinic equipment

Content

- Cylinder, regulator, flow rate: checks before use
- Non-rebreather mask, bag-valve mask
- Suctioning secretions, oropharyngeal airway
- Inventory and expiry dates of your clinic equipment

Teaching methods and resources

Face-to-face training, on your site, in French or in English. Short theory inputs and scenarios on your facilities.

Documents issued

Named certificate of attendance

Assessment

Continuous assessment through scenarios, plus an individual sheet filled in step by step and given to the trainee.

Trainer

A trainer from professional emergency services: nurse, firefighter or military. Their identity, qualifications and professional liability certificate are sent to you before the session.

Lead time

Quote within 48 working hours. The date is then set with you, according to our availability and your production constraints.

Price

On quotation, depending on group size, location and dates. Reply within 48 working hours.

Accessibility

Our courses are open to people with disabilities. The adjustments needed are studied case by case before the session with our disability officer, reachable on 06 51 36 51 97.

Training for companies and organisations only, always delivered at the client's site.
